Children love our “Chair in a Box” design. Its clean simple detail features a chair, activity table and storage cabinet all in one. One side has a removable chair (12 inch seat height) with a generous (10 $\frac{3}{4}$ inches x 17 $\frac{1}{2}$ inches) storage box below the seat. There’s ample access from the front and both sides through the large circle cutouts. The storage box will hold big coloring books, games and toys. The opposite side is a mirror image of the removable chair but it’s actually a hinged door with two storage shelves that measure 6 $\frac{1}{2}$ inches x 18 $\frac{3}{4}$ inches.

The entire unit is constructed from premium 9/16 inch thick birch veneer plywood. All of the edges have a soft radius and all of the corners have been rounded for safety. The Chair in a Box is constructed using no exposed hardware and it is engineered to last a lifetime.

Every Chair in a Box is hand sanded smooth and a multi-coat clear catalyzed lacquer finish is added for durability and surface protection.
