Our stacking chairs will bring a smile to your face. Sculpted from select maple hardwood veneers with smooth, rounded edges, kids of all ages delight in this magical design. This solid, high-back chair with seat imprint, gentle curved back and waterfall front is ergonomically designed for comfort. Our backset legs deter tipping and there are no parts to break. The chair complements our computer table or square maple table.

The bentwood chair features a rear-placed handle opening for ease of mobility and is strong enough to hold up to 300 lbs. Available in either 12-inch or 14-inch seat heights that stack up to 5 high. Select from natural maple or transparent primary colors finishes: blue, red, yellow, or green. Color finishes are water-based pigments with a clear, top-coated acrylic finish to reduce scratching and fading.
