

Square Maple Table

Modern detail and functional elegance create a new standard of achievement for kids. With superior materials and construction, we can deliver an outstanding table that is safe, durable and beautiful. Since kids grow and their work environments change, we construct maple legs that adjust to a height of either 20 or 23 inches. The rounded 1 $\frac{5}{8}$ -inch legs are segmented in two parts with one detachable section that has leveling glides to provide maximum flexibility.

The table tops are made with $\frac{3}{4}$ -inch thick white birch and mounted into a $\frac{3}{4}$ -inch bentwood maple frame with rounded corners and soft clean edges. This hardwood table can be refinished for long-term use and represents a solid value.

Each table is inspected throughout production to meet our highest quality standard. The multi-coat polyurethane finish is a special water-based, non-toxic finish that is extremely durable and environmentally friendly. Minimal assembly is required. Available in natural wood finish or primary colors for the desktop.

Product Number: Z3

Shipping: FOB, New Bern, NC 28562
